

NEOSPRAY 4

HEAVY DUTY UNIVERSAL DETERGENT FOR SPRAY WASH SYSTEMS

Neospray 4 is a universal liquid spray wash detergent ideal for the cleaning of ferrous and non ferrous components. Based on potassium alkalis this highly concentrate spray wash liquid detergent will remove a wide range of surface contaminants including carbonised oils, greases and various road films encountered in the automotive manufacturing and remanufacturing industries whilst leaving minimal detergent residues in single stage cleaning operations.

FEATURES

- *Water based product
- * Fully biodegradable
- * Low hazard product
- * Contains no TAP's or HAP's (Toxic/Hazardous Air Pollutants
- * Easy clean up with water
- * Low make-up concentrations typically 2 - 5% w/w
- * Suitable for automatic dosing
- * Virtually odourless product
- * Brightens components
- * Leaves very little residue in single stage cleaning operations
- * Highly effective at low concentrations
- * Inhibits against flash rusting
- * Operates at 60 - 80C saving energy
- * Costs less for waste disposal compared to toxic solvents.
- * Lower insurance premiums for operative safety and storage hazards.

TYPICAL USES

Neospray 4 will remove a Wide range of contaminants from various automotive components.

Typical applications include:

- *Excellent for removal of carbonised oils and greases from engine components etc. various aluminium components.
 - *Will brighten cast aluminium.
- Neospray 4 is formulated for use in enclosed spray wash machines from single stage to multi-stage systems.

PROPERTIES

Appearance:	Amber Liquid
Odour:	Mild Detergent
Specific Gravity:	1.25 @ 20C
Boiling Point:	100oC (212F)
pH:	11-12 @ 3%
Flash point:	N/A
Packaging:	25 Kilo U.N. Containers

**AFTER CLEANING USING
NEOSPRAY 4 @ 3% W/W**
